

CPDO (ER), Bhubaneswar - Feed Analysis

The CPDO (ER) has a feed analytical laboratory wing formerly known as Regional Feed Analytical Laboratory with an objective to analyze all types of animal feed and its ingredients received from public and private sectors in the eastern region of the country. This laboratory is well equipped with all modern equipments/instruments including Foss NIRS for rapid analysis.

At present all types of compound feed of poultry/cattle/rabbit/deer/fish and its ingredients are being analyzed in this laboratory with a very nominal charge fixed by ministry.

Rates for feed analysis:--

Sl.No.	Parameters	Amount (Rs.)
1.	All Parameters of Proximate Principles	400.00
2.	Moisture	50.00
3.	Ether extract (crude fat)	100.00
4.	Crude Fiber	150.00
5.	Crude Protein	100.00
6.	Total Ash	50.00
7.	Acid Insoluble Ash	100.00
8.	Calcium	150.00
9.	Total Phosphorus	150.00
10.	Available Phosphorus	150.00
11.	Salt (Sodium Chloride)	150.00
12.	Manganese	150.00
13.	Metabolisable Energy (by chemical assay)	500.00
14.	Aflatoxin	400.00
15.	Tannin	175.00
16.	Urea	150.00
17.	True protein	200.00
18.	Non – Protein Nitrogen	300.00

Feed sample of about 200 grams along with full amount of feed analysis charge (as per rate chart listed above) in the shape of Cash/M.O./DD in favor of Director, CPDO(ER) Bhubaneswar-12 may be send to this organization for analysis. Analysis report may be obtained through post/hand delivery/fax/email. So, it is requested to provide detail current address along with phone, fax and email for quick delivery service.
